DESIGNER DETAILS

Finding the right piece of modern furniture has become an easier task since DNA European Design Studio opened their new and much larger store in Little Italy. The grand opening party gave design aficionados and DNA's new neighbors a chance to check out furnishings from Arne Jacobsen and fun but functional kitchen accessories like Eva Solo's spice jars. The corner store had guests streaming in, all eager to meet owners Jesper and Cathi Pedersen who, with their adorable children, roamed about the store answering questions and giving salutations. A special exhibition of works by artists Jacqueline Angove and Lena Gardelli added to the hip atmosphere. A member of TADD, stop by DNA during the next Kettner Nights on November 11. —DAWN TRIEMSTRA
